Retail Tablet

UID0354-XX0

| S | M | L | XL | XXL |

The i DISPLAY Retail Tablet M is an Android based, interactive digital display with hardware and software specially designed for retail and commercial use. The i DISPLAY Retail Tablet M is a robust yet slimline unit that features a 10" capacitive multi touch screen, front camera and embedded Wi-Fi to allow remote automatic connection to content management system (CMS). The i DISPLAY Retail Tablet M features include content auto-play, auto-copy, auto-detect and password protection functionalities. Battery life is maximized due to the internal and external batteries and the stand-by mode. A VESA mounting system on the back enables various mounting solutions for the retail environment. Setting buttons and sockets are placed at the back of the device to prevent customers from modifying the preferred settings. The i DISPLAY Retail tablet M can connect to external hardware such as a coupon printer, barcode scanner and can run a multitude of Android applications to reinforce marketing messages and promotions within the retail space. The i DISPLAY Retail Tablet M offers the ability to work in either landscape or portrait mode, comes with a variety of fixtures, and is the ideal digital point of sale display for retailers looking for an affordable interactive digital signage solution that fits nicely in any location and provides great visibility from a distance!
